

RHIWLAS GREEN ENERGY NETWORK RHWDYDWAITH YNNI GWYRDD RHIWLAS

Green GEN Cymru are launching their second stage of consultation on the Rhiwlas wood pole electricity connection.

Rhiwlas GEN is a proposed 132kV (132,000 volt) wood pole overhead line (approx 35km in length) between Rhiwlas Energy Park near Llangurig and a new substation near Cefn Coch, Llanfair Caereinion. The project also includes a new underground cable route, 3km long between Banc Du and Rhiwlas Energy Parks.

To give feedback and for more information on the project, including an interactive map of the proposed route, please visit www.rhiwlasgen.wales

Three public drop-in sessions have been arranged to provide you with more information and to allow you to meet the team.

Mae Green GEN Cymru yn lansio ail gam o'r ymgynghoriad ar gysylltiad trydan polyn coed y Rhiwlas.

Mae Rhiwlas GEN yn llinell uwchben polyn pren 132kV (132,000 folt) arfaethedig (tua 35km o hyd) rhwng Parc Ynni Rhiwlas ger Llangurig ac is-orsaf newydd ger Cefn Coch, Llanfair Caereinion. Mae'r prosiect hefyd yn cynnwys llwybr cebl tanddaearol newydd, 3km o hyd rhwng Banc Du a Pharciau Ynni Rhiwlas.

I roi adborth ac am fwy o wybodaeth ar y prosiect, gan gynnwys map rhyngweithiol o'r llwybr arfaethedig, ewch i www.rhiwlasgen.wales

Mae tair sesiwn galw heibio cyhoeddus wedi'u trefnu i roi mwy o wybodaeth i chi ac i'ch galluogi i gwrdd â'r tîm.
